

Bennett Pump Company
EMV Roadmap
January 17, 2017

Introduction to EMV

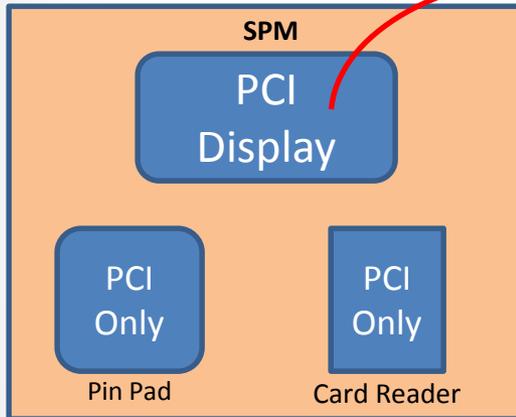

- EMV is Europay, Mastercard and Visa (EMVCo) seen as the inevitable successor to PCI compliance. The migration is currently scheduled for October 1, 2020 for fuel dispensers.
- EMV Specifications for the U.S. are still being defined.
- Bennett has proactively developed a strategy for the implementation of EMV compliance. This strategy includes the option to retrofit some current model Bennett dispensers with EMV compliant components as may be required once the **actual US specification is announced and mandated.**

Bennett PCI and EMV Migration Diagram

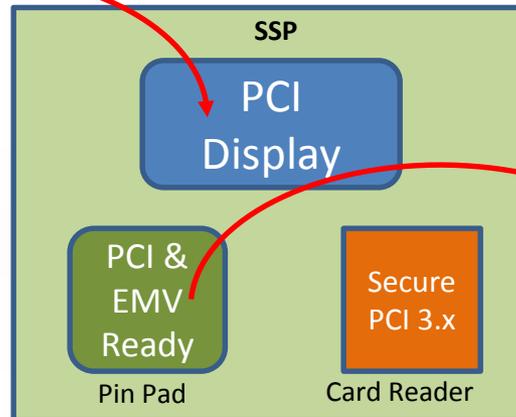

Secure Payment Module (SPM) to

Simply Secure Payment (SSP)

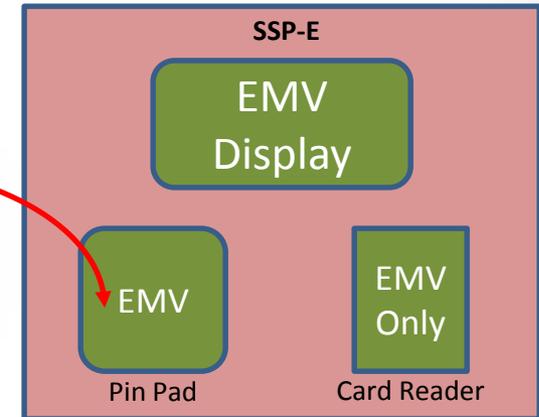

**Current SPM
PCI Compliant
& EMV Upgradeable**

**April 2014
PCI 3.x Compliant SSP
& EMV Ready***

**Available on or before
October 1st, 2020
EMV Compliant SSP-E**

***Based on known EMV specifications today.**
Note: Additional hardware and software will be required once US EMV specifications are announced

Bennett Pump EMV Roadmap

Bennett will offer the following EMV options:

- EMV Upgradeable (SPM)***
- EMV Ready (SSP)***
- EMV Compliant (SSP-E)***
- NFC (Near Field Technology)***

Based on current known EMV specifications. Additional updates may be required once US EMV requirements are released.

Roadmap at a Quick Glance

Pump Mfr	Model	EMV Ready?	PUMP EMV Kit	Dispenser Options	After market EMV Kit	After market kit Mfr
Bennett	Pacific	Yes	Yes	NA	Yes	Verifone
Bennett	Horizon II	No	Yes	NA	Yes	VeriFone

Any Bennett dispensers not listed do not have an EMV retrofit kit available at this time.
New dispenser must be purchased

Check with your Bennett Distributor for pricing.
Check with your VeriFone rep for aftermarket availability, and pricing.

NOTE: Please consult with your fuel pump mfr salesperson for up to date pricing and accuracy of features, peripherals and benefits

CITGO does not recommend any one fuel pump mfr verses another. It is your choice.

CITGO Dispenser Program

CITGO and Bennett have teamed up for a special dispenser program for CITGO Marketers

Eight Compelling Reasons to Purchase a Bennett Dispenser

- CITGO value-based pricing
- Lowest total cost of ownership*
- The most energy efficient dispenser with up to 70% savings in electricity costs*
- Designed for lower maintenance costs
- Industrial grade electronics with fewer boards and cables*
- 5-year extended warranty that covers the most critical components
- User-friendly ATM-style consumer interface
- Dispensers for most fueling applications (including alternative fuels)

* Compared to other dispenser brands, and based on research conducted by Bennett.

But don't take our word for it...

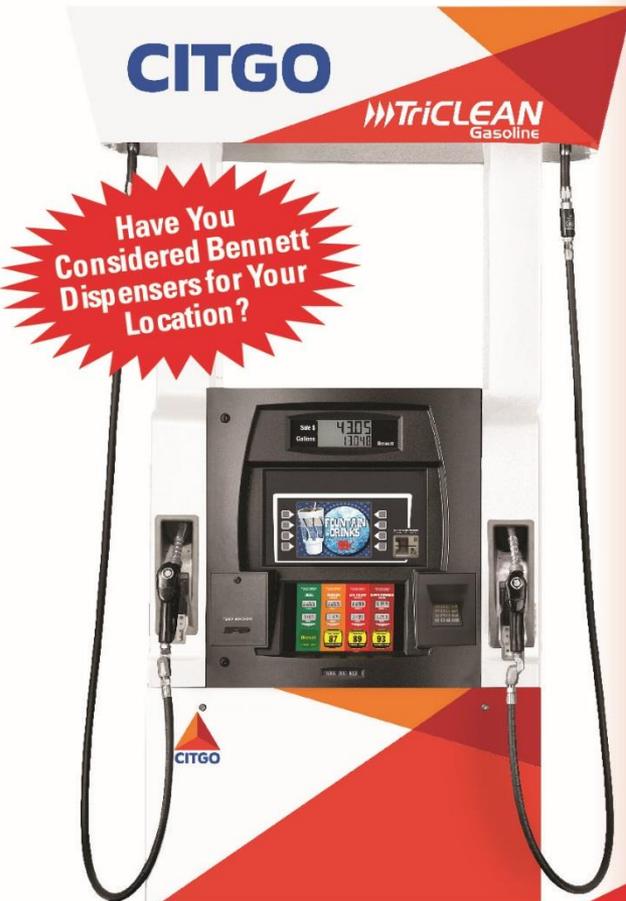

"Handy Food Stores selected Bennett dispensers for all of our CITGO locations after researching available products on the market. Our choice came down to alignment of our mutual corporate principles and philosophies in regard to the engineering of the product. We are extremely pleased with Bennett, its products and technical support. All who have seen and experienced our Bennett dispensers are impressed with the product and engineering. Well done."

Charles Martin
CITGO Marketer

Director of Construction and Facilities, Handy Food Stores, Inc.
