

Pinnacle Palm POS EMV Roadmap

July 2015

EMV Acceptance & Deadlines

EMV = Europay, MasterCard & Visa

Today, financial institutions are absorbing liability/fraud charges incurred by counterfeit cards. Merchants not accepting EMV by the dates listed below, will see a shift (change) of counterfeit liability. Meaning, merchants will absorb the liability/fraud charges instead of the financial institutions. EMV is more secure than magnetic stripe.

**New POS
PINPads &
Fuel
Dispensers
are
equipped to
accept EMV
Cards**

EMV Compliance Dates

Inside: October 1, 2015

Fuel Island: October 1, 2017

Pinnacle Palm EMV Software Upgrade Roadmap:

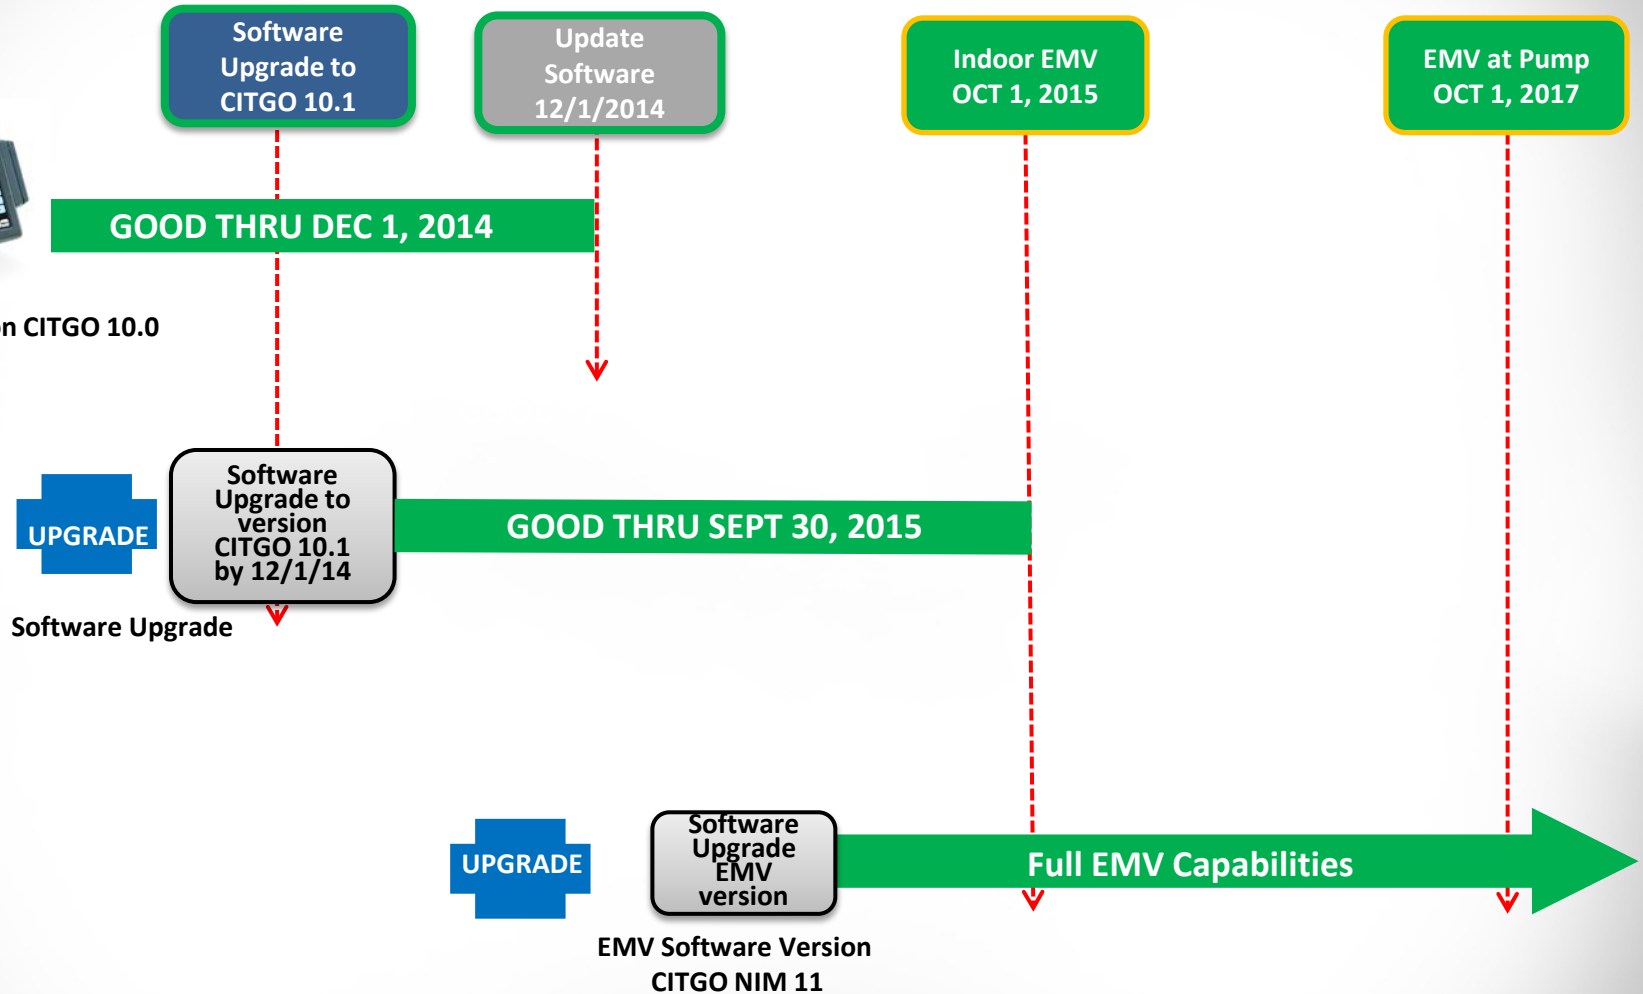

1. **Broadband (DSL, Cable, T1, etc.) by October 1, 2015**
2. **PCI Compliant Managed Firewall Service by October 1, 2015**
3. **Upgrade to EMV Capable Software when available 1Q 2016**
4. **Use EMV Capable PINPad: VeriFone Mx860 or Mx915**
5. **Upgrade Fuel Islands appropriately by October 1, 2017**

Pinnacle Palm POS EMV Roadmap:

Software Version CITGO 10.0

NOTE: EMV Acceptance will require upgraded software and EMV capable PINpads, and possible AFD firmware upgrades. Consult with Pinnacle for your personalized upgrade path.

Pinnacle Palm POS Roadmap at a Quick Glance

Pinnacle	Software Version	PA-DSS Version	PCI Compliant?	New Installations Accepted?	EMV Inside 10/1/2015	EMV Outside 10/1/2017	Verifone PP1000SE model 180 PinPad	Verifone Mx860 PIN Pad	Verifone Mx925 PIN Pad
Credit Version	CITGO NIM 10.1	2.0	Yes	Yes	No	No	No	Yes	Yes
EMV Credit Version	CITGO NIM 11	3.0	Yes	When available in 1Q 2016	Yes	Yes	No	Yes	Yes

PCI Software Application Compliance requires locations to upgrade to the most current software as soon as it is available to utilize the most secured software available

NOTE: Please consult with your Point-Of-Sale salesperson for up to date pricing and accuracy of features, peripherals and benefits

CITGO does not recommend any one Point-Of-Sale verses another. It is your choice.
