THE CITGO® AUTOMOTIVE LUBRICANTS FAMILY
CITGO SUPERGARD® synthetic motor oils are well-balanced combinations of high-quality synthetic base stocks and advanced additive systems that meet stringent automotive specifications. They are designed to provide outstanding protection in today's high-performance gasoline engines including turbocharged and supercharged engines. In addition, they provide excellent thermal and oxidation stability, enhanced protection against varnish buildup and sludge formation and they provide lower volatility and better high-temperature/high-shear properties than conventional motor oils. CITGO SUPERGARD synthetic motor oils are available in 0W-16, 0W-20, 5W-20, 5W-30, 10W-30, Euro 5W-30 and Euro 5W-40. They meet or exceed the performance requirements for the latest domestic and foreign gasoline-fueled engines and are licensed ILSAC GF-5/Resource Conserving and API SN. Grades 0W-20, 5W-20 and 5W-30 are licensed GM dexos1®.

CITGO SUPERGARD UltraLife® 5W-20, 5W-30, 10W-30 and 10W-40 motor oils are premium-quality motor oils designed to extend the life of and provide optimum performance in higher-mileage passenger car, van, SUV and light duty truck high-output gasoline engines (including turbocharged and supercharged engines). These oils are formulated with highly refined base oils and additive systems to manage the problems (e.g. leaking seals or excessive wear) associated with engines that have exceeded their warranties. They meet or exceed the performance requirements for the latest domestic and foreign gasoline-fueled engines and are licensed ILSAC GF-5/Resource Conserving and API SN.
CONVENTIONAL AND SYNTHETIC-BLEND
PASSENGER CAR MOTOR OILS
CITGO SUPERGARD SAE 5W-20, 5W-30, 10W-30 and 10W-40 motor oils meet or exceed the performance requirements for the latest domestic and foreign gasoline-fueled engines and are licensed ILSAC GF-5/Resource Conserving and API SN.

FULL-SYNTHETIC HEAVY DUTY DIESEL ENGINE OILS
CITGO CITGARD® SynDurance® PLUS 5W-30 and 5W-40 synthetic heavy duty engine oils are built with the next generation fuel efficient technology that addresses the environmental challenge of reducing greenhouse gases. They exceed the performance requirements of newer engines operating at higher temperatures with active control, lower RPM and higher torque and advanced combustion design. CITGO CITGARD SynDurance PLUS synthetic heavy duty engine oils have been field tested for over a million miles with engine teardown inspections compared to premium SAE 15W-40 engine oils. The results indicate superior wear protection and oil consumption control. These API CK-4 licensed products utilize premium synthetic base stocks to improve high- and low-temperature properties that give maximum engine protection over a wider temperature range compared to conventional SAE 15W-40 engine oil. The careful balance of synthetic base oil components with an extremely shear stable viscosity modifier ensures heavily loaded engine parts have protective oil films that results in superior wear protection and engine durability.

SYNTHETIC-BLEND HEAVY DUTY DIESEL ENGINE OILS
CITGO CITGARD 700 engine oils SAE 10W-30 and 15W-40 are synthetic blends engineered to provide added protection in both older and newer engines equipped with exhaust after-treatment systems. These engine oils offer several advantages compared to conventional heavy duty engine oils including greater oxidation stability that protects against the higher operating temperatures, improved viscosity control and greater shear stability, and reduced engine oil air entrainment. CITGARD 700 synthetic blend API CK-4 oils are completely backwards compatible with older engines and engines that previously used API CJ-4 engine oils. The CITGARD 700 synthetic-blend 10W-30 engine oils not only improve fuel economy but also optimize engine durability and wear protection while improving cold cranking start-up lubrication. CITGARD 700 MFE synthetic blend SAE 10W-30 meets the API FA-4 performance category and provides additional fuel economy compared to the API CJ-4 and API CK-4 engine oils. CITGARD 700 MFE synthetic blend SAE 10W-30 should only be used in engines as recommended by the engine manufacturer. CITGARD 700 synthetic blend engine oils meet a wide range of heavy duty requirements for use in commercial trucks, agricultural equipment, construction equipment, stationary engines, and other diesel-fueled engine applications. Always consult your owner's manual for proper lubricant selection.

HEAVY DUTY DIESEL ENGINE OILS
CITGO CITGARD 600 multi-viscosity grade engine oils use superior technology to protect current and older model low-emissions engines equipped with exhaust after-treatment systems including EGR and SCR emission technology. These products meet the API CK-4 heavy duty requirements as well as existing API CJ-4, CI-4 PLUS and earlier categories. These engine oils are recommended for use in heavy duty service in commercial trucks, agricultural equipment, construction equipment, stationary engines, and other diesel-fueled engine applications. CITGARD 600 engine oils permit year-round use by offering improved low-temperature startability with full lubrication at high operating temperatures and are available in SAE 15W-40 and 10W-30 grades.
CITGO AUTOMATIC TRANSMISSION AND POWER STEERING FLUIDS

THE CITGO TRANSGARD® PRODUCT LINE IS A COLLECTION OF CONVENTIONAL AND FULL-SYNTHETIC AUTOMATIC TRANSMISSION FLUIDS DESIGNED TO LUBRICATE, ACTUATE AND COOL 99% OF VEHICLES ON THE ROAD TODAY. EVERY TRANSGARD FLUID HAS UNDERGONE EXTREME TESTING TO ENSURE TRANSMISSIONS ARE PROTECTED FROM OXIDATION, RUST, CORROSION AND WEAR.

TRANSGARD Full-Synthetic Transmission Fluids

DEXRON® VI - CITGO TRANSGARD DEXRON-VI ATF is a full-synthetic, automatic transmission fluid approved and licensed by General Motors for use in its vehicles with automatic transmissions. This fluid is designed to provide twice the normal service life of a DEXRON-IIIH ATF and offers enhanced performance for both new and older model transmissions.

ATF®+4 - CITGO TRANSGARD ATF+4 is a full-synthetic automatic transmission fluid recommended for use in Chrysler vehicles. It has been extensively tested and approved by Chrysler under material specification MS-9602. It is recommended for top-off and refill of all automatic transmissions in Dodge, Chrysler and Jeep vehicles where ATF+4, ATF+3 or MS 7176 are necessary.

Multi-Vehicle LV Synthetic ATF - CITGO TRANSGARD Multi-Vehicle Low-Viscosity ATF contains the highest quality synthetic base stocks combined with a state of the art additive system to provide superior performance in automatic and powershift transmissions. Provides inventory optimization (multi-vehicle compatible) without the use of ATF supplements. CITGO TRANSGARD Multi-Vehicle Low-Viscosity ATF is suitable for use in vehicles recommending DEXRON-VI, MERCON® LV, JASO 1A, Toyota WS, Honda DW-1, Nissan/Infiniti Matic S, Hyundai SP-IV, and GM vehicles recommending DEXRON®-III.
Multi-Vehicle HV Synthetic ATF - CITGO TRANSGARD Multi-Vehicle High-Viscosity ATF contains the highest quality synthetic base stocks combined with a state of the art additive system to provide superior performance in automatic and powershift transmissions. It is suitable for use in transmissions calling for Ford MERCON® V, Ford MERCON (obsolete), General Motors DEXRON®-IIH (obsolete), and Allison C-4 type fluids. It provides inventory optimization (multi-vehicle compatible) without the use of ATF supplements. CITGO TRANSGARD Multi-Vehicle High-Viscosity ATF is suitable for use in GM, Ford, Toyota, Honda, Nissan, Hyundai and other imported vehicles.

CVT - CITGO TRANSGARD Continuously Variable Transmission Fluid is a full synthetic specifically formulated to prolong and protect transmission life in modern high-technology belt- and chain-driven CVT transmissions. It helps maintain smooth operation, reduces transmission wear and degrades less over time. CITGO TRANSGARD CVT Fluid is recommended for use in most foreign and domestic belt and chain-driven CVT transmissions.

TRANSGARD Conventional Transmission Fluids

MERCON® V - CITGO TRANSGARD ATF, MERCON V is an advanced extended-life automatic transmission fluid designed for Ford transmissions and transaxles. This product may also be used in automatic transmission units that require a fluid qualified against the Ford MERCON specification. It is recommended for use in all applications requiring MERCON V, MERCON, DEXRON®, ALLISON C-4 and JASO 1A. It is also formulated for use in most Toyota, Nissan, Honda and other imported vehicles. This product is an excellent choice for transmissions used in severe service, including passenger car and bus fleets as well as towing applications, and is designed to exhibit extended life compared with conventional multipurpose ATFs.

Multi-Purpose ATF - CITGO TRANSGARD Multi-Purpose ATF is an automatic transmission fluid designed for electronically-controlled transmissions. This product is specifically designed for use in General Motors transmissions calling for DEXRON-III, DEXRON-IIIE and DEXRON-II fluids. It can also be used in Ford transmissions calling for MERCON type ATFs.

TYPE F - CITGO TRANSGARD ATF, Type F is recommended for use in all automatic transmissions for which a Type F fluid (Ford Specification M2C33-F) is specified. The product is qualified and approved by Ford Motor Company and is also recommended for service fill of power steering units of many Ford passenger cars and light duty trucks, and can be used in various anti-wear hydraulic fluid applications.

Power Steering Fluid

CITGO Power Steering Fluid with Stop Leak is formulated with high-quality base stocks and additives designed to ensure smooth system operation and revitalize dried, shrunken, and hardened seals. This product helps stop or reduce fluid loss caused by leaky seals and, when used as a preventative maintenance fluid, helps avoid future leaks.
CITGO AUTOMOTIVE
GEAR LUBRICANTS

THE CITGO GEAR OILS LINE INCLUDES CONVENTIONAL AND SYNTHETIC LUBRICANTS DESIGNED WITH EXTREME PRESSURE PROPERTIES THAT PROTECTS AUTOMOTIVE GEARS OPERATED UNDER THE MOST SEVERE CONDITIONS IN PASSENGER CARS, TRUCKS, FARM TRACTORS, EARTH MOVING, CONSTRUCTION AND OTHER HEAVY DUTY EQUIPMENT.

CITGO Synthetic Gear Lubricants are heavy duty, synthetic gear and bearing lubricants designed for use in manual transmissions, transfer cases and differential axles of trucks, farm tractors, construction equipment, passenger cars and miscellaneous industrial equipment. Blended from very high viscosity index, low pour-point synthetic base stocks, these oils provide maximum protection to gears and bearings operating over a wide range of temperatures, speeds and loads. Their superb resistance to oxidation provides the benefit of extended drain intervals. Available in viscosity grades: SAE 75W-90, SAE 80W-140 and SAE 50. These products meet or exceed API Service Classification GL-5 and MT-1, SAE J2360, MIL-L-2105D and MIL-PRF-2105E, Dana Shaes 256 Rev. C, & 429, Mack GO-J Plus (75W-90), Mack GO-J (80W-140), ArvinMeritor O-76N, International TMS-6816, General Electric D 50E9C and Harnishfeger (P&H) 474. CITGO Synthetic Gear Lubricant SAE 50 is recommended for heavy duty service in manual transmission for which the manufacturer normally recommends GL-1 to GL-4/MT-1, Meritor 081, Mack MDrive, Mack TO-A PLUS, Volvo l-Shift, ZF Freedom Line ZF TE-ML-O4D, and International TMS-6816.

CITGO Premium Gear Oils (MP) are recommended for applications where a “multi-purpose” gear oil or one meeting the requirements of API Service GL-4, GL-5 and/or MT-1 is required. They are also recommended in transmissions, differentials, final drives and other gear cases of trucks, buses and farm equipment where extreme-pressure (EP) hypoid or multi-purpose gear oils are specified. CITGO Premium Gear Oils (MP) are blended to meet the multigrade viscosity requirements described in SAE J306 viscosity recommended practice. CITGO Premium Gear Oils (MP) are available in SAE 80W-90 and SAE 85W-140 grades.
CITGO SynDurance Premium Synthetic 460 Grease #2 is an automotive wheel bearing and chassis lubricant. SynDurance 460 provides superior water washout and spray-off resistance and is designed to resist corrosion in fresh and sea water conditions, which is particularly important when automobiles are exposed to corrosive anti-icing agents and water spray conditions that are common in cold and inclement weather. In addition, the product provides superior extreme-pressure and anti-wear characteristics. This grease meets the NLGI service classification of GC-LB and displays the NLGI certification mark as an automotive wheel bearing and chassis lubricant.

CITGO Lithoplex MP Grease is an automotive wheel bearing and chassis lubricant that includes extreme-pressure additives and molybdenum disulfide (moly) to minimize wear in heavily loaded components. This grease satisfies a wide-range of automotive applications including bearings, ball joints and bushings. This grease is certified for the NLGI service classification GC-LB.

CITGO Lithoplex RT Grease is an automotive wheel bearing and chassis lubricant that includes extreme-pressure additives to minimize wear under heavy loads. This grease satisfies a wide-range of automotive applications including bearings, ball joints and bushings and is recommended for Mack MG-C. This grease is certified for the NLGI service classification GC-LB.

CITGO Lithoplex Red MP Grease is an automotive wheel bearing and chassis lubricant that includes extreme-pressure additives to minimize wear in heavily loaded components. This grease satisfies a wide-range of automotive applications including bearings, ball joints and bushings. This grease is certified for the NLGI service classification GC-LB.

CITGO Premium Lithium EP Grease is a chassis lubricant that contains extreme pressure, antiwear, antioxidant and anticorrosion additives. This grease provides excellent pumpability over a wide temperature range and the extreme pressure agent provides the protection required to handle severe conditions characterized by high shock loads. In addition, this product has excellent shear stability, load carrying properties, corrosion resistance and oxidation stability. CITGO Premium Lithium EP meets the NLGI certification of LB as a chassis lubricant.

CITGO Calsuplex MP Grease is specially formulated with a calcium sulfonate thickener in premium base oils to provide excellent performance in a wide variety of automotive, heavy duty and industrial applications. It provides excellent corrosion control for high moisture environments and provides dependable performance in a broad range of automotive applications including bearings, ball joints and bushings. This grease is certified for the NLGI service classification GC-LB.
INSTALLED KITS

FOR INSTRUCTIONS ON HOW NEW LOCATIONS CAN ORDER FREE KITS, VISIT MARKETNET AND CLICK MARKETING TOOLBOX → AUTOMOTIVE PROGRAM.

PARTICIPATING INSTALLED LOCATIONS WILL RECEIVE A KIT WITHIN 2 TO 4 WEEKS.

The installed kits will include:

1. Counter Mat
2. New Customer Postcard Template
3. Lobby Poster
4. Oil Change Reminder Clings (1,000 per kit)
5. Curb Sleeve
6. Bay Banner

Additional kit items may be purchased through CITGO® MarketNet via the Print Store. For additional information about how to access these items and a list of FAQs, visit MarketNet → Marketing Toolbox → Automotive Program.

Marketers will be able to choose the number of households to target, which installed locations to include and what discounts to offer on each postcard. The cost of the postcard, discounts and postage are funded by the marketer/installer. This service is eligible for CITGO BDF reimbursement.
